Seeking:

New opportunities and interesting things. A job where I can leverage past computer experience would be great, but I also love working outdoors and driving the open road. I'm very detail oriented and logically minded, so any role where that would be beneficial would be a great fit. I also work on my own truck, so I'm mechanically inclined as well. Check out my YouTube channel linked above! I love dogs, so a dog friendly company would be wonderful!

Experience:

Midcon Cables (05/2026 - 06/2026) - IT Technician (part-time)

- We used NinjaOne as our RMM
- Clone hard drives using WinToHDD
- Copy user profiles
- Image new computers
- New computer installs
- Friendly with great customer service!

Green Country Staffing (04/2026 - 06/2026) - Cleaner

- Assigned to Hard Rock Casino And Hotel
- Push in chairs
- Wipe slot machines, empty ashtrays, and pick up cups and glasses.
- Clean windows and vacuum carpets
- Answer guest's questions

Prime Industrial Recruiting (12/2024 - 02/2026)

- Assigned to Gavco as an assembler
- Screwed wingnuts on to parts
